DETAILED ACTION***Reissue Applications***

Claims 8-18 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Pannu v. Storz Instruments Inc.*, 258 F.3d 1366, 59 USPQ2d 1597 (Fed. Cir. 2001); *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to claim subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope of claim subject matter surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

This application fails the second test set forth in MPEP 1412.02 (C. The Third Step) because the reissue claims entirely omit limitations that were added during original prosecution to overcome an art rejection. Such an omission in a reissue claim, even if it includes other limitations making the reissue claim narrower than the patent claim in other aspects, is impermissible recapture. Specifically, the limitations of original claim 5 and intervening claim 2 were added to claim 1 by an Examiner's amendment dated June 23, 1997 following a telephonic interview with the examiner by Applicants' attorney on June 18, 1997, which limitations were agreed to in order to make the claim allowable.

Furthermore, MPEP 1412.02 (C. The Third Step)(2)(a) states that "Reissue claims that are broader than the original patent claims by not including the surrender-generating-limitation

Art Unit: 3747

will be barred by the recapture rule even though there is narrowing of the claims not related to the surrender-generating-limitation, the surrender-generating-limitation being that limitation added to obtain allowance of the original patent. The surrender-generating-limitation in this case, the subject matter of original claims 2 and 5, has been left out of the newly-presented claims.

Allowable Subject Matter

Claims 1-7 are allowed.

Conclusion

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
